

Alyan Shahid

Full Stack Developer

I'm Alyan Shahid, a fresh Computer Science graduate who enjoys building things on the web and learning new technologies. I'm curious by nature, quick to adapt, and like working with people to turn ideas into something real. I believe in starting small, improving step by step, and giving my best to every task.

PERSONAL PROJECTS

Hotel Website UI – HTML, CSS, JavaScript

- Built a clean and responsive hotel website interface with booking, login, and other key features.
- https://github.com/codezworl/ui_of_hotel_management
- live link : <https://pak-hotel-85fdbb.netlify.app/>

UnityStack – MERN Stack Student Platform

- Final Year Project: Developed a student community platform with modules for project sharing, live sessions (WebRTC), and chat (WebSocket.io).
- Performed functional and integration testing to ensure feature reliability before deployment
- <https://github.com/codezworl/UnityStack2.0>

Travel Buddy Website – HTML, CSS, JavaScript, PHP

- Created a tourism guide site with hotel customization and booking options for travelers.
- <https://github.com/codezworl/tourism-guide-website>

Restaurant UI – React.js

- Designed a responsive restaurant site interface during internship work, focusing on layout and usability.
- <https://github.com/codezworl/restraunt-ui/tree/main/final-project>

Speakify-Html css js and python

- A web app that changes written text into spoken audio in different languages. Users can type or paste text, choose a language, and listen to it instantly.
- <https://github.com/codezworl/Speakify>
- live link : <https://1560c150-e4e4-4902-b551-9f225fdb8281-00-17wk5nyil6ut5.pike.replit.dev/>

EDUCATION

Bs Computer Science

Riphah International University

10/2021 - 07/2025

Lahore
